

求積計算

$$30.2 \times 2.7 \times \frac{1}{2} = 40.77$$

$$30.2 \times 4.6 \times \frac{1}{2} = 69.46$$

$$4.9 \times 0.9 \times \frac{1}{2} = 2.20$$

$$\text{計 } 112.43 \text{ m}^2$$

$$\approx 112 \text{ m}^2$$

$$S = \frac{1}{250}$$
